

# PROTECTING *Black Life*

REACHING THE BLACK COMMUNITY WITH THE PRO-LIFE MESSAGE

AN OUTREACH OF LIFE ISSUES INSTITUTE

**Protecting Black Life was birthed with the primary objective of educating the African American community that we are being targeted by the abortion industry.**

- We develop pro-life educational literature, as well as maintain a web site and resources exclusively for the African American community for the purpose of education on the issue of abortion.
- We collaborate with African American pastors and community leaders to develop strategies to reduce and eventually eradicate the problem of abortion in the black community.
- We speak to African American audiences at local and national gatherings and events.
- We help to equip and mobilize the African American community to become actively involved in the battle to stop the deadly evil of abortion.
- We operate pro-life educational booths at African American events.
- We organize pro-life educational groups and efforts in the African American community.

**ARNOLD M. CULBREATH**  
**URBAN OUTREACH DIRECTOR**

**Will you partner with us to  
help eradicate abortion?**

what is  
**PROTECTING  
BLACK  
LIFE**

The leading cause  
of death in the  
African American  
community is  
**ABORTION!**

Higher than AIDS, Violent Crimes,  
Accidents, Cancer and  
Heart Disease COMBINED!

*Cumulative statistics from the U.S. Center for  
Disease Control National Vital Statistics Reports*

**OVER 14.5 MILLION**  
Black Babies  
have died to  
**ABORTION**  
since 1973.

**Something must be  
done to stop this  
devastating dilemma!**

- African Americans are disproportionately impacted by abortion. While representing only 13% of the female population in the U.S., black women account for 35% of the nation's abortions.

*US Center for Disease Control  
US Census Bureau*

- Planned Parenthood, the largest abortion provider in the country, targets African Americans by locating 62.5% (approx. 2 out of every 3) of their abortion facilities in black communities.

*Life Issues Connector, October 2005*

- Abortion's negative impact has significantly contributed to African Americans being the only minority in America whose population is in decline. Hispanics are now the largest minority group in the country. If the current trend continues, the black community may cease to make a significant positive contribution in society.

*US Census Bureau*

- **YOU** can help turn this problem around by continuing to learn about abortion's impact and encouraging others to do the same!
